

Environmental Policy Statement of Fabled Frog Soap, Inc

Protecting our shared environment is of fundamental importance to Fabled Frog Soap, Inc, as it is to our employees, customers, and other stakeholders. To support this common goal, we will:

- Comply with applicable local, state, and federal environmental regulations.
- Continually strive to reduce any negative environmental impact of our products and processes.
- Strive to protect the health and safety of our employees, customers, surrounding communities, and ecosystems.
- Use natural resources, including raw materials, energy, and water, as efficiently as possible.

We will work to achieve these commitments by:

- Requiring environmental awareness training, where necessary and appropriate, for all of our employees.
- Evaluating products and processes from the point of view of environmental risk, dedicating ourselves to finding better alternatives based on preventing any environmental detriment.
- Considering the environmental risks of our raw materials and products at all stages of our product's life, placing priority on risks present during production of the raw ingredients, our production process and during our customers' use of our products.
- Working collaboratively with our customers, suppliers, and the surrounding community on environmental and social issues.

We will make every effort to ensure that environmental stewardship is an integral part of Fabled Frog Soap's performance and of the performance of all of our employees. To this end, we will measure and periodically report on our progress in realizing these commitments.

Kimberly Merenz
President/CEO
Fabled Frog Soap, Inc
